

## About Coral Mountain

**Coral Mountain is partnering with CIWM (Chartered Institution of Wastes Management) accredited Enviro UK Consultants to provide WasteSmart Courses.**

**Coral Mountain helps companies reduce their environmental impact by developing Sustainability Programmes, which focus on leadership, communication and engagement.**

As accredited trainers and an accredited training centre for the CIWM, we deliver the WasteSmart training at Foundation and Advanced levels.

The training is delivered by Sharon Lashley who is a professional and experienced environmentalist with a background in waste management, renewable energy and

energy efficiency.

In such a challenging environment where legislation including waste management regulations and permits drive many organisational procedures and policies, our training courses provide a perfect opportunity to ensure that staff are trained to manage waste confidently and competently and ensure compliance with legislation.

For more information visit **[www.coralmountain.co.uk](http://www.coralmountain.co.uk)** or to book a course please contact Michelle Marks **[improve@coralmountain.co.uk](mailto:improve@coralmountain.co.uk)**.

Enviro UK Consultants Ltd is an environmental business consultancy specialising in helping businesses improve their green credentials, save energy and comply with Waste and Environmental legislation.
